

A wargaming system for strategy and military operation in the Staff and Command School (SESKOAU). With this system, all students are able to train their skills in arranging the military operation plan, the preparation, and execute the plan through dynamical and interactive simulation.

**FEATURES :**

1. **Military Operation Plan Simulation**  
 Simulating tactical training scenario, strategy and military operation with calculating the aircraft technical forces, weapons, radar, and base data.
2. **Tactical Air Maneuvering Game (TAMG)**  
 Supporting tactical training, strategy and military operation with Tactical Air Maneuvering Game (TAMG) method which simulates aircraft, weapons, and sensor maneuvers realistically.
3. **Interactive Visualization**  
 Displaying simulation with dynamical and interactive visualization, including 3D version.
4. **Improving Team Cooperation**  
 Supporting student cooperation. Every student can play with different terms in the simulation.
5. **Training Analysis & Evaluation**  
 Analyzing and evaluating the student performance in all training of military operation conducted in the system.
