

A geographic-based aircraft traffic monitoring system that displays radar data in real time and integrated.

TDAS integrates civil and military radars, and also provides flight plan and flight clearance in order that aircraft traffic in the region can be monitored on a screen in real-time.

## FEATURES :

1. Illegal aircraft identification
2. GCI (Ground Control Intercept) aircraft simulation
3. Recording/Playback for aircraft accident investigation tools.
4. Compatible with various radar brands, such as Plessey, EV 720, EV 760, PR 800, Asterix, Cardion, NEC, and Aircat.

TDAS Display
